

WINGS OF PORTUGAL – SANTARÉM 2010

THE EVENTIS COMING!!

Twelve years of Wings of Portugal ! The unique event where companionship is more important than competition and prizes!

Again in Santarém one of the most historical cities in Portugal, "Wings of Portugal" will take place on the 3/5 of September.

Three days of control line and radio control with many social events.

This year the event is included in the celebration of my 50 years of television work as host and producer. It's a very important date which is having many public events during this year. As aeromodelling is part of my life, the three days of Wings of Portugal will represent a big party with all my friends and fellows.

Santarém City Council, the Mayor, and Scalabisport , sport foundation of the region, are the main sponsors of the event.

Figures: On the last years we had an average of 300 entries of aeromodellers from Portugal, Spain, Italy, Colômbia, Holand, Ireland, Canada, Moldavia, Ukraine, Russia, United Kingdom, Australia and United States of America.

This friendly competition is a journey of sportsmanship where protests, greedy people and takers are not welcome!
